

Thrilling Play-off Hockey Witnessed By Irma Fans in Commercial Finals

The second game of the Commercial Finals saw Irma travel to Wainwright Wednesday, March 5. Irma received a 7 to 2 defeat, evening the series at one game apiece.

Wainwright was unable to make it to Irma on Friday, so Chauvin was invited down to play an exhibition game. In a close, fast game, Irma won a 6-5 decision.

The first period brought two goals to each team. Scores for Irma were R. Lovig from Galtie and A. Glasgow from McDuff. Chauvin point-getters in this period were Foutz from Wald-urger and Waldunder from Foutz. In the third frame Irma led their opposition scoreless and shot in three goals to gain the victory. R. Lovig scored twice assisted by G. Lovig and Stan Wright got the big one with aid from R. Lovig and Bud Fischer.

Only four penalties were handed out: R. Glasgow and W. Wright for tripping and Foutz and W. Wright for roughing.

Monday, March 10 brought Wainwright Ducks to Irma for the third game of the series. The biggest crowd of the season saw Irma take out a hard-won 4-3 victory in a thrilling, action-packed game.

At the end of the first period the Ducks were leading 2-0 on goals by McDuff from Bevens and Kile from Bevens. Two penalties were handed out to R. Lovig, Irma and M. Sheffield, Wainwright, for tripping.

Although the ice was soft in spots, the action was very fast and Irma came back from behind and period with two goals by John Galtie unassisted R. Prior from Galtie. There were no penalties handed out in this period.

With the game tied at 2 all, the third period started out fast and furious. Stan Wright scored with an assist from A. Glasgow to put Irma in the lead. In a few min-

utes the Ducks tied it up again with a goal by Bill Sheffield. About three minutes before the end of the game R. Lovig scored the winning goal assisted by Galtie.

Penalties were to Kennedy and McDuff for tripping. Irma goes to Wainwright Wednesday, March 12 and the next game will be Friday, March 14 at Irma, if necessary.

Wainwright School Div. Board Meeting

Minutes of the Wainwright School Division Board as of Friday, March 7th:

All members present: Allen—That the minutes of the last meeting be adopted as read.

Correspondence was read and ordered filed.

Mitchell—That we engage the firm of P. Campbell-Hope and Associate Architects for the Chauvin School Addition. Cd. Allen—That the Chairman and the Secretary be empowered to call a Budget Meeting as soon as sufficient information re Grants is received and that all members of the Board be notified. Cd. Mitchell—That the action of the office re sale of the Bloomingdale Valley School building to Mr. H. McMann of Wainwright in the amount of \$300.00 be approved.

Discussion re uses of the Lolo Mabey School Auditorium:

Rattray—That we approve the use of the Lolo Mabey School Auditorium for the Allied Arts Council of Cultural Activities on the following dates as requested by the Chairman of the Council: May 2nd, May 9th, May 16th. Cd. Mr. W. H. R. Gardiner was a delegate from the Wainwright Branch of the C. R. Cross and requested the use of the above mentioned auditorium for the Annual Red Cross Ball on Friday, April 25th.

Rattray—That the Wainwright Branch of the Canadian Red Cross be allowed to have the use of the Lolo Mabey School Auditorium, the Home Economics Room and two classrooms for the Annual Ball on April 25th. Cd.

Mr. M. Rusk and Mr. J. Stinert of the Wainwright Kismen Club interviewed the Board with regard to the use of the auditorium throughout the Division re "Search for Talent" program; this matter was satisfactorily settled to both the committee and the Board.

Allen—That the accounts for the month of February in the amount of \$29,680.73 be passed for payment and that the same be included in the minutes of this meeting. Cd.

Allen—That accounts for the month of March in the amount of \$18,278.00 be passed for payment and that the same be included in the minutes of this meeting. Cd.

Hill—That the following building accounts as submitted be approved for payment and that the same be included in the minutes of this meeting: Irma \$356.95; Edgerton \$14,503.80; Wainwright \$17,546.42. Cd.

Zajac—That the balance of the account of P. Campbell-Hope and Associates be passed for payment in the amount of \$3,242.03 and that the same be included in the minutes of this meeting. Cd.

Rattray—That Dr. H. G. Polking attend the next meeting of the M. D. No. 61 to be held on Thursday, March 13th. Cd.

Mr. D. H. Gunn, representing the Local A.T.A. discussed proposals for Salary increases for the year 1958-59. No decisions were reached at this meeting.

Hill—That this meeting adjourn. Cd.

Next meeting of the Board will be held on Thursday, April 3rd, beginning at 9:30 a.m.

Mr. and Mrs. J. Taylor visited in the city a few days last week. Congratulations to our ladies' rink who did so well in the Edmonton Ladies Bonspiel.

Mary Dooleen visited at home the beginning of the week.

IRMA BOY MAKES GOOD

Irma folk will remember Mr. Tom Ralph who lived north of Irma in the 1930's. When Mr. Charlie Fyle was on a trip to the coast and the U.S. this winter, he looked Tom up at Custer, Wash. and found him to be a busy and prosperous man. He and his wife and three children have a poultry farm with 8,000 laying hens. Besides this they raised 19 acres of canary peas and have half share in a 14-acre strawberry patch.

Mr. Ralph has built most of his chicken houses himself. He employs one hired man. Feed for his hens is purchased by the carload lot and is distributed to them in 50 lb. hanging feeders. There is an automatic watering system.

The Lynden Tribune of Lynden, Wash. carried a very interesting story of his work and progress and also published pictures which we wish we were able to reproduce here. The article told of the various setbacks Tom has received once when sickness killed off 800 pullets and again when frost spoiled his berries. This newspaper commended his determination and perseverance. When this was published in February, Tom was shipping close to 70 cases of eggs per week and expected to be shipping 100 cases weekly by the middle of March.

We have enjoyed hearing of Tom's success and hope he will continue to enjoy poultry farming and that life in general will continue to be kind to him.

W.I. Start Subscription List for Debbie Bacon

Little Debbie Bacon, infant daughter of Mr. and Mrs. Freddie Bacon, is home again after spending three weeks in an Edmonton hospital following a heart operation which was necessary if she is to live a normal life.

The members of the W.I. have started a subscription list for Debbie.

It seems that \$25 was required before Debbie could even be granted an appointment with the heart specialist, then \$500 was needed for the use of the heart and lung machine. After that came the complicated operation with no less than 50 doctors in attendance and of course there is a hospital bill as well.

Irma folks are asked to give as generously as possible. These subscription lists are in several of the business premises in Irma. The W.I. has headed this list with a donation of \$50.00.

Mrs. Martin Enger Guest Speaker at Lacombe, Edmonton

Mrs. Martin Enger in her capacity of Alberta Conference W. A. President, was luncheon guest speaker at the Red Deer Presbytery W. A. Annual Meeting held in Lacombe on Wednesday and at Edmonton Presbytery W. A. annual meeting held in Avonmore on Friday, Thursday she attended the meetings of the Alberta Conference Committee of Evangelism and Social Service and National Evangelical Mission held in Knox United Church, Calgary.

Notice to Subscribers

With this issue the Times mailing lists have been corrected up to March 7th. Subscribers will please note any errors or omissions and report same to Mrs. H. Riley, Irma, and same will be gladly corrected.

All subscribers in arrears will please make an effort to renew as soon as possible as costs of publication are rising steadily.

EASTERLY ECHOES

Mr. and Mrs. J. Taylor visited in the city a few days last week. Congratulations to our ladies' rink who did so well in the Edmonton Ladies Bonspiel.

Regular Meeting Village Council

Minutes of the regular monthly meeting of the Council of the Village of Irma, held on the 3rd day of March 1958 at 8 p.m. in the Village Office.

Councillors present: G. Hurst, V. S. Sampson, A. C. Charter, Secretary-Treasurer.

In the absence of the Mayor, Deputy Mayor Sampson presided. Minutes of the last regular meeting of the Council were read. Mr. Hurst moved that minutes be accepted as written.

Correspondence then dealt with:

Department of Municipal Affairs: Re The Alberta Architects' Act. Filed.

D. Swain, Mannville: Re Income deductions, 1957. Necessary information forwarded by Secretary. Filed.

W. D. Usher and Associates Ltd.: Re Legal Survey Sec. 27-18-2-W4'h and linen trappings thereof for necessary signatures. Filed.

Dept. of Public Welfare: Re Public Assistance. Filed.

Copy of letter from Ackerman Construction to D. R. Stanley has been approved. Mr. Hurst moved that the agreement be given the necessary signatures and copy of said agreement be incorporated in the Minutes of this meeting. Cd.

In the matter of appointing a tax inspector to comply with Bylaw No. 229 of the Village of Irma and meet the requirements of the Protection Branch, Department of Industries and Labor.

Secretary instructed to approach Mr. Stan Murray as to if he would be willing to undertake this position.

The matter of appointing a Plumbing Inspector was also discussed. There was action taken in this regard.

Secretary instructed to insert a notice in the Irma Times re 1958 Dog Licenses.

Letter from Imperial Lumber Co. Ltd. re possible acquisition of the old rink site to their present Lumber Yard site and closing of lane running between the two properties.

It was decided to ask Mr. E. P. Olsen, Superintendent of the Company to come to Irma and discuss this matter further with Council.

As required by the Town and Village Act, Secretary placed Secretary-Treasurer's Security Bond—renewal certificate dated 12th July 1956, expiring July 12th, 1959, Canadian Indemnity Company, before the Council.

Moved by Mr. Hurst that we appoint (subject to the approval of the Ministry) Messrs: Deloitte, Plender, Haskins and Sells as auditors for 1958 and that the Minister be notified accordingly.

A. C. Charter was appointed enumerator for the year 1958, Village of Irma. Motion by Mr. Hurst.

Secretary reported Gas Franchise from the Northwestern Utilities for the year 1957 amounted to \$801.46.

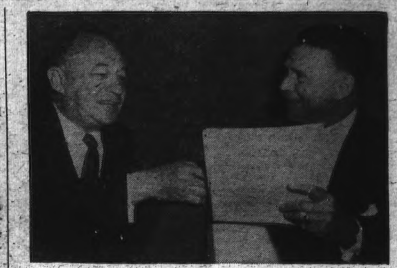

Financial Statement presented:

Net balance at the end of the previous month, \$8973.2. Receipts for February \$1886.28. Disbursements \$1746.99. Net balance at the end of the month \$9112.41. Bal. at Bank \$9112.41. Savings Account \$10265.02.

Mr. Hurst moved that Financial Statement be accepted as presented.

Accounts presented for payment amounted to \$653.30 and passed. Motioned by Mr. Hurst.

Adjourn—motioned by Sampson.

YANKEE TRADER IN DEAL WITH INDIAN—New York—George Weiss, (left) General Manager of the New York Yankees, and Frank Lane, General Manager of the Cleveland Indians are having a little conference of their own as they met for the Major League Meeting at the Hotel Commodore, The Yankees of the old days found it easier to trade with the Indians than at present. It is reported Weiss wants Pitcher Ray Niekirk from the Indians. Lane is playing hard to get.

WITH THE District Agriculturist

By J. S. Duncan

Warble Spraying Time

Now is the time to watch your cattle and spray for warble as soon as they start to open up on the animals backs. A high pressure sprayer is the best for this treatment. Pressure of 400 to 500 pounds per square inch is ideal. The warble powders containing Rotene are the best to use. If you can't get a sprayer you can treat your cattle by hand, using a stiff brush to scrub the powder or liquid into the animals back. This treatment costs only a few cents per head and can make you a profit of several dollars per head. It is too late in the season to use systems such as Trolene.

Weed Control

A bit early yet to do much in this line, but one method of weed control which is often overlooked is to plant only clean seed. Now is the time to get that seed cleaned up so as to have it ready. It is also a good time to look over machinery, sprayers, etc., so that they are all in shape to go when the land and the weather are fit.

Farm Accounts

If you haven't started your yearly accounts and taken your inventory yet, it is time that you did. Farming is a business and no business can keep going without proper records. Don't be down hearted just because you aren't sure what account book or type of book you should use. If you are having trouble getting started why not drop into the office and talk it over? You will find it easier than you expected and will get a lot of good value out of your records.

Southern Sayings

Last Friday evening Mrs. Wes Bacon was greatly surprised when Mr. and Mrs. Tom Bacon and family, Mr. and Mrs. Albert Bacon and family, Mr. and Mrs. Fred Bacon, Mr. and Mrs. George Tindall and family, Mrs. Bacor Sr. and Mr. and Mrs. Ted Hill and family dropped in unexpectedly, to celebrate Allie's belated birthday and also Allie's and Wes' fifteenth wedding anniversary.

Nevt W.I. meeting will be held at the home of Mrs. E. Tomlinson on March 20th. Hostesses: Mrs. S. Johnston and Mrs. E. Tomlinson. Topic: Health by Mrs. T. Hill. Raffle: Mrs. H. Long. Miss E. M. Craig, district home economist, will be present at this meeting and will give ideas regarding bazaar and novelties.

Mr. and Mrs. J. Jackson were visiting in Sedgewick last Sunday.

Mrs. Leslie Reber and children of White Court spent a few days recently visiting at the home of Mr. Mrs. S. C. Johnston.

Canadian history shows that the country's progress has always been closely identified with the advances in rail transportation. The year 1857 was no exception as both C.P.R. and C.N.R. opened up new areas of mineral exploration of new rail lines.

C. D. Desjardine Awarded Certificate

Mr. C. D. Desjardine of the Searle Grain Company Limited at Irma, Alberta, has been awarded a Ten Year Elevator Master Merit Certificate. This award is granted by Grain Insurance and Guarantee Company in recognition of proficiency in the care of grain elevator premises and to earn this, an elevator agent must have a perfect record for ten consecutive years.

Inspections of all plants insured by Grain Insurance and Guarantee Company are carried out by Affiliated Inspection Bureau Limited. This organization for the past 24 years has major in the inspection of grain elevators, flour and feed mills and other properties, and its service is acknowledged as being thorough and exacting. Winning the award is there fore recognized as a definite achievement by the grain trade generally.

NOTICE VILLAGE OF IRMA

All Owners and Harbors of Dogs within the Village of Irma who have not yet procured a 1958 dog license are requested to do so forthwith.

—Secretary-Treasurer.

OPTOMETRIST

D. A. Matheson, R.O., 205 Birks Building, Edmonton, Alberta will be in Irma at the Hotel on Monday, March 17, 2:30 p.m. — For appointment see Mrs. Lang at the Drug store.

At 7:30 p.m. a film "The Shield of Faith" will be shown at the Family Night service. There will also be a film for the young folk.

Everyone welcome.

H. W. Inglis, Minister.

Weekly Inspirational Corner

(Sponsored by an Irma Times reader)

Remember that Jesus Christ of the seed of David was raised from the dead according to my gospel.

Wherein I suffer trouble, as an evil doer, even unto bonds; but the word of God is not bound. Therefore I endure all things for the sake of the elect, that they may also obtain salvation which is in Christ Jesus with eternal glory.

It is a faithful saying: For if we be dead with Him, we shall also live with Him:

If we suffer, we shall also reign with Him; if we deny Him, He will also deny us:—II Timothy 2:8-12.

The world is getting warmer— affects both nature and man

Over the last 40 or 50 years the earth has been getting warmer, the National Geographic Society reports.

The change is gradual and there have been short-term reverses, but science has proved grand-father correct: Today's winters are not as cold as those he knew as a boy.

Warmer weather has both advantages and disadvantages.

A New Yorker who awakens to the liquid cadences of the mockingbird, once the avian symbol of the south, or the Canadian wheat grower who finds farming possible 50 miles north of the former limit may be delighted.

A different view may be taken by a New England waterman who finds tropical green crabs threatening his clam beds, or the skier who is forced to go to higher and higher to find snow.

All forms of wild life have been affected. Turkey vultures soar in western Massachusetts, where they were not seen 15 years ago. White egrets stalk the Middle Atlantic marshes. In South Dakota and Minnesota, the cardinal flashes at ever more northerly points.

Reports indicate that the moose and the polar bear, as well as the common opossum, are finding haunts well north of their former ranges.

Ocean dwellers are changing their feeding grounds. Warm-water fish have been moving up the California coast. Dolphin were taken last year as far north as Oregon.

Weather patterns have been disrupted. Last year, for the first time in history, a hurricane struck Hawaii. At Point Barrow, the northernmost part of Alaska, the ice went out earlier in 1937 than ever before.

Changes have also taken place on the Atlantic. The life of the Greenland Eskimo has been revolutionized. When seals were plentiful, the Eskimos were self-sufficient. Seals provided meat, skins for clothing and shelter; and

oil for lamps. When warmer weather drove the seals north, the economy was wrecked. But codfish moved north, too, and became plentiful near Greenland. The Eskimos turned to fishing, which offered income, but not all the uses of the seals. They were forced to convert to a money-based economy.

As the world's icecaps melt and glaciers become smaller, more water is released to the ocean. The sea level has been rising an eighth of an inch a year. If it continues, some coastal cities eventually may have to build dikes.

Climatologists differ on the cause of the warming. Some see the change as part of the Ice Age cycle, with the ice retreating as it has several times before.

Possibly, climatologists hold, gradual clearing from the atmosphere of the dust thrown up by huge volcanic eruptions of the past, such as Krakatau (1883) and Katmai (1912), has allowed more of the sun's heat to strike the earth. Other theories tie the change to sunspot cycles or to an increase in carbon dioxide in the air caused by man's burning of fuels.

Will the trend continue? Again there is dispute. Some scientists forecast a century of warmer weather. Others, noting increases in the size of certain glaciers, believe the cycle may have reached its warmest point, and is about to reverse itself.

Home and School group hears travel talk

Hitch-hiking, through Europe was the subject of a travel talk given by Mrs. Ruth Swatland at the January meeting of the Varennes Home and School association, held recently.

Mrs. Swatland illustrated her talk with colored slides of the countryside and historic buildings she encountered in her travels on the continent three years ago. The St. Vital Lance, Winnipeg, Man.

INITIAL PRODUCTION of building board rolls off the big press in Saskatchewan's first board factory. The \$3,000,000 plant of Prairie Fibreboard Ltd. is located in Saskatoon and is the city's largest industrial building. Both softboard and hardboard will be produced in the plant.

Saskatoon plant most advanced on continent

Saskatchewan's big fibreboard plant in Saskatoon began commercial production of building board in January. The \$3,000,000 factory of Prairie Fibreboard Limited is located in Saskatoon's northern industrial section.

The first day of production, January 30, the plant turned out 20,000 square feet of softboard processed from waste wheatstraw. Capacity output for an eight-hour shift is 25,000 square feet. At the start, the plant will operate on one shift.

Gordon Sinclair, managing director of the company, said the product measured up to government-approved standards and was ready for marketing. A second product, asbestos-impregnated

sheathing, will be in production shortly and this will be followed by an output of fine panel board. Hardboard processed from jack-pine and poplar pulp will be in production later this year when special equipment on order is delivered by a firm in western Germany.

The process used by Prairie Fibreboard to manufacture softboard from wheatstraw was developed by a research team headed by Mr. Sinclair working under the auspices of the National Research Council at the University of Saskatchewan.

The softboard and hardboard produced in the Saskatoon plant is a versatile product, it has many uses as a building material, everything in fact from insulating wall-board, acoustic tile, asphalt sheathing, to hardboard for flooring and furniture manufacturing. Saskatchewan's largest industrial building, the plant area covers some 80,000 square feet of working space. A. S. Vigor, of Shelton, Washington, a specialist in this type of plant set-up, described the new industry as one of the most advanced on the continent in engineering design and process production.

From conveyor belts carrying raw materials down through a sequence of mechanical operations

to the discharge of finished board from the gas-fired Coe dryer, the whole process is a classic illustration of modern automation.

The wheatstraw moves into the plant over conveyor belts at the south end of the mill. The straw, 42 bales in each processed batch, proceeds through a hydropulper where it is defibred and passes into a storage tank.

The pulp is next put through the hydroformer where the material is reduced to a degree of fineness required for board production. The next basic step is the magnetic separator and this operation tracks down and eliminates any bits of fine metal that might have found their way into straw fibre.

Another stage in the careful screening process is the centrifuge which rejects sand and similar foreign matter. And finally, the Jonsson Screen which catches any remaining rougher fibre not acceptable for board processing.

Excess caustic soda in the pulp is removed by a vacuum washer and following this a water-resistant material is introduced. This might be resin, wax, asphalt or sulphur depending on the use the board will be put to.

After this meticulous conditioning the pulp arrives at the consistency controller where material coherence of the stock is regulated before passing into the forming machine where correct thickness, density and approved quality of board is effected. From the former the material goes to the gas-fired dryer and here the board reaches its finished texture—94 percent fibres and six pounds of water. Before reaching the forming machine headbox its proportions were 99 percent water and 1 percent fibres.

Final step in the softboard operation is cutting the board to size. Initially the plant will produce roof decking and then move into production of prime coated wall panelling.

Emerging heart of the fibreboard operation is the big 35-ton power plant, a completely packaged unit of recent design which will activate the maze of modern board-building machines. Automatic control panels constitute the eyes, ears, and nerve-centre of the operation.

Prairie Fibreboard Ltd. is one of several new prairie industries sponsored by Allied Securities Ltd. of Saskatoon, Ray Hauer, president of Allied Securities, heads the fibreboard plant.

Big game guide to ride horseback to Grande Prairie

Henry McCullough, a 49-year-old Rocky Mountain big game guide, will leave Edmonton on horseback February 5th on a 290 mile ride to the city of Grande Prairie.

McCullough will take about nine days to complete the ride going via Valleyview and Whitecourt along the old Edison trail. This trail into the rich Peace River country was used during the early years of this century by settlers moving into northern Alberta.

His arrival will coincide with civic celebrations marking elevation of Grande Prairie to city status. He will carry a replica of the city's new charter, given him on the steps of the legislative building by Lieutenant-governor J. M. Bowlen and Premier Ernest Manning.

Grande Prairie is Alberta's ninth city—The Sun, Edmonton, Alta., Jan. 30, 1938.

In a 20-mile race, a man would win over a horse because of his endurance.

Senior Citizens' home now completed

The Senior Citizen's home in Ponteix is now ready for occupancy.

The accepted applicants have been notified to move in as soon as convenient.

The furniture and dishes arrived recently and representatives from the T. Eaton Co., Regina, were present to supervise assembling of the furniture.

The bedding and drapes were expected to arrive immediately.

Further applications are being considered and application forms may be obtained from the secretary—Ponteix Herald-Star, Moose Jaw, Sask.

"Veto" comes from the Latin meaning "I forbid."

Cinch to sew PRINTED PATTERN

by Anne Adams

Junior! Everyone's making it everyone's wearing it. A cinch to sew—no waist seams. Just cinch with a belt, and you're all set to go. Two necklines, three sleeve versions included in this Printed Pattern.

Printed Pattern 4873, Jr. Miss Sizes 9, 11, 13, 15, 17. Size 13 takes 4 1/2 yards 38-inch fabric. Printed directions on each pattern part. Easier, accurate.

Send forty cents (40c) in coin (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to:

Household Arts Department, Department F.P.L., 67 Front Street W., Toronto.

Itch... Itch... I Was Very Nervous

Very first use of soothing, cooling liquid D.D.D. prescription positively relieved my itch—caused by eczema, hives, urticaria, etc. No more itching. D.D.D. Remedies, Dept. CW, 100 Ossington Ave., Toronto 3, Ont. 88-92

YOU CAN DEPEND ON DODD'S KIDNEY PILLS

When kidneys fail to remove waste, backache, nervousness, disturbed rest, kidney pills should be taken. You can depend on Dodd's Kidney Pills. They are the best. Remedies, Dept. CW, 100 Ossington Ave., Toronto 3, Ont. 88-92

YOU CAN SLEEP TO-NIGHT

AND RELIEVE NERVOUSNESS ALLDAY TO-MORROW!

SEDICIN tablets taken according to directions is a safe way to induce sleep or quiet the nervous when tense.

Try my wonderful GLAZED PEACH PINWHEEL PUDDING!

Drain and save syrup from 20-ounce can sliced peaches. Sift together once, then into bowl. 2 c. once-sifted pastry flour or 1 1/2 c. once-sifted all-purpose flour. 4 tps. Magic Baking Powder. 1/2 tsp. salt. 1/4 c. granulated sugar.

Cut in finely 1/2 c. chilled shortening. Make well in dry ingredients add 1/2 c. milk and mix lightly with a fork, adding milk, if necessary, to make a stiff dough. Knead 10 seconds on floured board. Roll out to 8 x 12-inches. Spread with 1/2 c. thick raspberry jam.

Sprinkle with 2 tps. chopped almonds. Arrange peaches over dough. Beginning at a short edge, roll up cut into 6 slices. Place, cut side up, in greased 7 x 11-inch pan. Bake in hot oven, 400°, 25 min. Meanwhile, bring to boil, stirring, 1 tsp. granulated sugar, 1 tsp. corn starch, few grains salt. 1 tsp. lemon juice, 1 c. peach syrup (use water, if necessary, to bring measure up to 1 c.). Stir in 1 tsp. butter or margarine and 1/4 tsp. almond extract.

Four over partially cooked pinwheels. Bake about 20 min. longer. Yield—8 servings. Protect all your ingredients with dependable MAGIC! Get light and tender results... get MAGIC Baking Powder soon!

Many electrical appliances render house wiring inadequate

The average Canadian home is using four times the amount of electricity it did 25 years ago and three times as much as it did 14 years ago. Yet eight out of 10 homes in Canada were wired long before this greatly increased demand occurred.

The home electric system that was originally designed for operating a dozen 60 watt bulbs, is now being called upon to provide electric power for a multiplicity of appliances, some of which alone may well take the entire load of incoming electric power. In addition to old wiring problems, many owners of relatively new homes

are discovering that their electric systems are almost as obsolete as those in antiquated houses.

To understand what has happened to the average electric system, it is necessary to know something about how it works. Home wiring systems are in two parts. The first is the service entrance which brings electricity from company power lines to the house. The second distributes that electric power throughout the home.

The service entrance consists of the wires coming from the power line to the house, the meter, the switch and fuse box. The amount of electricity which can be brought into a home at any one time is determined by the capacity of the service entrance wires and equipment.

The second part of the electric system which distributes electricity from the service entrance throughout the house is composed of branch circuits and outlets.

The number of branch circuits and the size of wire in the circuits determine how efficiently electricity can operate lights and appliances.

Clean Eggs, Feed, Housing and Economically by the Cleanest Method. Clean, crocked eggs safely and removes all stains. Unit for attachment to your ¼ H.P. motor only \$9.00 delivered. Illustrated circular free. Heavy breed cockerels only \$12.00 per 100 during April and May, FOB Waterloo. Free chick price list. Henrich Poultry Farm, Waterloo, Ontario. You can buy from us with confidence. We have been hatching good chicks since 1915.

Mediterranean cruise

The world cruise liner Caronia will make a 32-day Autumn Cruise to the Mediterranean sailing from New York October 3, the Cunard Line has announced.

The Caronia, which is air-conditioned throughout, will cruise the entire Mediterranean calling at 19 colorful ports in 15 countries during the time of year when the great inland sea enjoys its most salubrious weather.

Minimum rate for this voyage, which will be the Caronia's fourth Autumn Cruise to the Mediterranean, is \$1,000.

A new port this year on the Caronia's 13,000-mile itinerary is Italy's canal-city of Venice. The complete itinerary will include calls at Funchal, Casablanca, Malta, Alexandria, Haifa, The Dardanelles, Istanbul, Athens, Dubrovnik, Venice, Catania, Messina, Naples, Villefranche, Barcelona, Gibraltar, Lisbon, Gherbourg and Southampton. Shore excursions are being arranged by the American Express Company.

On completion of the cruise passengers will have the opportunity to stopover in Britain or on the continent for interesting individual tours. The cruise includes return passage from Europe, first class, in any one of 11 Cunard ships including the Queen Elizabeth and Queen Mary.

Meeting to organize Hanna Safety Council

Interested parties in Hanna have recently elected to organize what will be known as the "Hanna Safety Council." Their purpose will be to foster safety habits, promote the local school patrol, which has been abandoned for some time due to lack of supervision. One of the main undertakings by the council will be to encourage driver education, especially among younger persons who are preparing to apply for their drivers' licences. The hope of the organization is to make Hanna a safe town, both for drivers and pedestrians.—The Herald, Hanna, Alta.

It is estimated that 76 percent of Canadian homes are equipped with telephones, 96 percent with radio, and 63 percent with television.

WHY CATCH COLD?—Smart businessmen wear lightweight wool topcoats these cool mornings while the weather still remains unpredictable—nippy in the early a.m. and warm at high noon. Shop your favorite men's store now for this handsome black and white hand-tooled-check wool topcoat that, in a set-in sleeve model, is definitely styled for men on the go, men who can't afford to be away from the job.

Topcoats in wool a Spring must

What's in a topcoat name? The back to the 19th century, but our grandfathers would hardly recognize today's topcoat. The modern topcoat, 1949's top clothing design, is a more sophisticated square silhouette of the past, topcoats that often weighed a man down, yet were the only ones available for spring. Now in raglan and chesterfield both date favor is the lean, really lightweight, comfortable look that provides clean, yet distinctive lines in keeping with today's fast-paced mode of living.

The raglan is a loose-hanging wool topcoat with sleeves continuing over the shoulders up to the collar. It was named after Lord Raglan, who designed the wool garment for the protection of his soldiers during the Crimean War back in the 1850's. His idea was to increase their fighting capacity by the greater freedom of action

afforded by the peculiar shoulder. The original raglan had sleeves with cuffs that could be turned down over the hands for warmth. It was being part of the English army uniform of that day.

The highly styled 1949 raglan wool topcoat retains these cuffs, sleeves, but in a modified form. It's a much shorter coat, too, thanks to Canadian tailoring, with narrower sleeves; and it's even more sporting in character than the raglan of the 1940's—more comfortable, less weighty, in today's modern lightweight wool fabrics, thanks this time to modern weaving and finishing techniques.

The hand-tooled check pattern belongs to the raglan-shoulder wool topcoat. The hand-tooled check is dressy enough for all but the most formal town occasions this spring. The pattern also lends itself strikingly to the coat's full sweep.

Mention the word, "chesterfield," and most men conjure up a wool herringbone topcoat sporting a black velvet collar. Look at any old-fashioned Christmas card and you'll probably see an English gentleman against a snowy background struggling to hold onto a frozen horse, wearing his velvet-collared chesterfield.

The chesterfield is actually a single-breasted, fly-front wool topcoat reaching to the knee. The velvet collar is optional. The coat has either a plain back or one with a centre seam, and is designed with set-in sleeves. The plain-collar chesterfield is one of this Spring's most popular lightweight wool topcoat models. Canadian men prefer wearing it these chilly mornings. Common sense tells them a lightweight wool topcoat set lightly on the shoulders helps them avoid colds.

Spring topcoat colors haven't varied much in recent years; for years blue has been outstanding. Spring '58 will see light grey as the important fashion color for men in fine wool coats.

CURLING FAME

Mike Chernoff, son of Mr. and Mrs. Nick Chernoff of Kamack, Kingston, who topped the Kingston Curling Club bonspiel for the second year in a row—the only skip to accomplish the feat in the 32 years of Kingston bonspiel history.—The Times, Kamack, Ont.

CANADIAN CATTLE INDUSTRY

R. K. Bennett, Head of the Livestock Merchandising Section of the Canada Department of Agriculture, says that at the present time indications are that 1958 should be a reasonably good year for Canadian cattlemen. There are at least 100,000 fewer head of cattle fed in Canada than a year ago, and according to a United States Department of Agriculture survey, the number of cattle and calves on feed in the United States at January 1, 1958, was 3 percent less than last year. This indicates a reduction in the number of cattle to be slaughtered in that country this year.

In 1957 American feeders imported about 24,000 head of feeder cattle from Canada. Mr. Bennett says this was partially due to the fact that the severe drought in the United States had been broken in most areas and many ranchers who would have sold cattle last fall if the drought had continued were instead in the market to buy. Furthermore, the Americans have a record supply of corn and other feed grains, a situation conducive to cattle feeding. Shipments up to date this year indicate that this strong demand for Canadian feeder cattle is still continuing.

The production of beef in Ontario is based, to a considerable extent, on the purchase of feeder cattle from western Canada. In 1957 Ontario farmers purchased approximately 85 percent of their feeder cattle and calves from the west. Last year Ontario marketed nearly 700,000 head at public stockyards and packing plants, which means that feeders bought from the west made up about 25 percent of all the cattle marketed in Ontario.

Cattle prices, Mr. Bennett says, are closely tied to United States levels. When cattle are in short supply in this country the price level moves up, but as soon as the price at Toronto rises above the Chicago price to an amount equal to the freight and duty, American cattle start to move into Canada. In other words when beef cattle are moving in from the United States, the U.S. price sets a ceiling above which Canadian prices do not rise. On the other hand, when Canada has a surplus and is exporting cattle, the Canadian price tends to become the United States price, less the cost of shipping. This reverse situation and the United States price provides a floor below which Canadian prices do not drop.

The story of cattle marketing in Canada is related to the distribution of human population and the areas where beef cattle are produced. Mr. Bennett points out that only about 27 percent of all Canadians live in western Canada but the beef markets nearly 65 percent of the cattle. This means that western Canada is a surplus area for beef and the east is a deficit area where only 35 percent of the cattle is produced. The result is a continuous movement of live cattle and dressed beef from west to the large consuming centres of the east.

The quality of beef breeding

herds in Canada has always been reasonably high and in the last ten years the quality of animals on a carcass basis in inspected slaughter has been improved tremendously. In 1948 the number of top grade carcasses (red and blue brand beef) in inspected kill, was little less than 5,000 per week, representing about 15 percent of the total kill. Last year the weekly average in these top grades was nearly 18,000 head or 39 percent of the total kill.

WORDS OF THE WISE

The man who will use his skill and constructive imagination to see how much he can give for a dollar, instead of how little he can give for a dollar is bound to succeed.

The International Date Line splitting the Pacific is the 180th meridian.

Half-size style PRINTED PATTERN

4869
SIZES
14½-24½
by Anne Adams

This Printed Pattern is a pleasure to sew, a pleasure to wear for busy business women. It's designed especially for the shorter, fuller figure—to sit perfectly without alteration.

Printed Pattern 4869: Half Size 14½, 16½, 18½, 20½, 22½, 24½. Size 16½ takes 3½ yards 35-inch fabric.

Printed directions on each pattern part. Easier, now!

Send fifty cents (50c) in coins (stamps cannot be accepted) for this pattern. Please print plainly: Size, Name, Address, Style No. to: Anne Adams Pattern Dept., Department P.F.L., 60 Front Street, W., Toronto.

Delicious!

Serve warm, generously buttered... a delicious tea-time treat. If you have a home where you never fail where you use dependable Fleischmann's Active Dry Yeast!

ALMOND TWISTS

- Measure into bowl:
1 cup lukewarm water
50 in
- 2 teaspoons granulated sugar
Sprinkle contents of 2 envelopes Fleischmann's Active Dry Yeast
Let stand 10 minutes, THEN stir well.
- 1/2 cup butter or margarine
Blend in.
- 1/2 cup granulated sugar
1 1/2 teaspoons salt
Blend in, part of it.
- 2 well-beaten eggs
Add the yeast mixture and the salt to the egg mixture. Stir in 1 teaspoon vanilla.
- 2 cups once-sifted self-rising flour and beat until smooth and elastic.
Work in an additional 2 1/2 cups (about) once-sifted self-rising flour.
- Turn out on lightly-floured board; knead until smooth and elastic; place in greased bowl. Brush top of dough with melted shortening. Cover. Let rise in warm place, free from draft, until doubled in bulk—about 1 hour. Bake in moderate oven, 350°, 20 to 25 minutes. Yield: 36 twists.

500 VOTES COULD DECIDE

In the election of June 10, 1957, more than 6,000,000 Canadians voted.

In 51 of the 265 seats, the winner had a margin of fewer than 1,000 votes over the second place candidate.

That means that on March 31, in these ridings only 500 voters or fewer need to switch their votes from the 1957 winner to the party that ran second, and that riding will have a new MP says The Financial Post in a special election survey.

Here's a box-score of the less-than-1,000 margin seats:

Conservatives won 21 from Liberals, one from CCF.

Liberals won 10 from PCs, three each from CCF and SC, one from Independent.

CCF won four from Liberals, one from PC.

Social Credit won two from PCs, one from Liberal, one from CCF.

Independents won three from Liberals.

Close to 40 percent of immigrants entering Canada during 1957 were in the manufacturing, mechanical and construction trades.

The Red Cross Appeal

March is Red Cross month. Throughout the year we expect the Red Cross to carry on its many humanitarian duties. In March, the Red Cross looks to us. Through our dollars we will share in the work of mercy that is willingly assumed by the Canadian Red Cross. A generous donation will mean a strong Canadian Red Cross to carry on its traditional role in the community, throughout our nation and across the world.

An expanding nation means increased responsibilities for our Red Cross. Let us give as generously as our means will allow to this great organization of help and hope.

'Tree Farms' for Higher Profits

The 'Tree Farm' movement is expanding rapidly throughout Canada. Farmers and other land owners, anxious to make their sections of tree-growth profitable, are adopting modern methods of forest culture to encourage more rapid growth of trees giving the highest profit. The name 'Tree Farm' indicates the application of other agricultural crops.

TRY A TIMES WANT AD

The Alberta Legislature In Action

by Ken Mason

EDMONTON—Forecasts of a major change in the financial policy of Alberta's Social Credit government were borne out in the budget presented in the Legislature by Provincial Treasurer E. W. Hinman.

In the face of diminishing natural resources revenue and uncertainty over gas export, the 1958-59 budget calls for expenditures of \$263,664,098—a drop of \$21,005,277 from last year's record \$285,669,370, and the first decline in overall spending since 1946.

As predicted earlier, the budget sets aside more money for direct municipal assistance and much less for statutory payments which in past years have been used to build up reserves and provide low-interest loans to local authorities.

What it means is that the province has all but "washed" its hands of the lending business. Only small amounts will be set aside to buy debentures of municipalities when they can't get good rates on the open market.

If you don't count statutory provisions, spending will be up for the year. The budget estimates expenditures at \$258,064,093 for the year, against \$213,969,370 for the current year, or an increase of \$44,094,723.

The big difference is in statutory payments. They amount to only \$5,000,000 of the budget total, compared with \$71,500,000 in last year's budget.

Dropped from the budget are such items as last year's \$35,000,000 investment in the Municipal Finance Corporation, \$11,000,000 for school loans, and \$10,000,000 for Alberta Government Telephone.

Overall Municipal assistance will use up \$99,117,200, an increase of \$13,863,100 over last year's figure of \$85,254,100. According to Premier Manning, the increase in grants will cover the anticipated rise in the cost of education and leave enough over to permit an average reduction of 10 mills in municipal tax rates.

Education grants will amount to \$40,750,000; hospital grants \$16,180,000, and highway grants \$12,025,000. All are up considerably from last year.

Grants to municipal councils—no longer tied to the gasoline tax—will amount to \$15,000,000 against \$10,800,000 last year. These are the grants paid directly to local councils, with no strings attached.

Revenue will be up for the year—\$263,669,585, an increase of \$11,067,160 over last year. But the main source of revenue, natural resources—is expected to decline to \$111,865,000 from last year's estimate of \$128,091,000.

This drop reflects the slowdown in the oil industry, brought about by dwindling U.S. markets, uncertainty over gas export, and less interest in exploration and development work.

Speaking privately to reporters, Mr. Hinman said the biggest revenue item, sales of leases and reservation, will probably drop sharply if the oil situation doesn't improve. Unless there is an unexpected increase in revenue, expenditures will have to be cut next year.

As it is, he said, all government departments will have to budget closely in the coming year.

Other main revenue items include \$32,275,000 from the federal-provincial tax rental agreement and federal subsidies, \$36,215,000 from the gasoline tax, and \$16,000,000 from liquor sales.

The budget indicates oil and gas royalty dividends will be slightly lower this year. It sets aside \$10,000,000 for the dividends, compared with \$11,000,000 last year, reflecting a drop in royalties.

Education and highways continue to be the big spenders among the government departments.

The education department will spend a total of \$57,524,980, which represents 22 per cent of the provincial revenue. The highways department will spend \$19,591,750 on income accounts, and \$42,442,000 on capital construction to continue the program of building main roads.

Liberal Leader Harper Prowse launched the debate on the budget this week, and it is expected to last for more than a week.

Sale of Farm Property By Tender

Sealed Tenders will be received by the undersigned executor of the Estate of E. Modin, Bruce, for the following land:

West Half of Section 36, Township 46, Range 14, With Mer. containing about 180 acres cultivated and a complete set of modern buildings, natural gas, hydro power, running water and sewer installed.

and the S.E. Quarter of Section 1, Township 46, Range 14, With Mer. containing 180 acres, more or less, of pasture land.

All lands to be sold as one unit.

Tenders must contain certified cheque for 10% of the bid price and be in the hands of the executor by April 10th, 1958. The highest or any tender not necessarily accepted. Inspection of the premises can be arranged at the farm at any time. Location of the farm is one mile north and four and a half miles east of Bruce. Cheques of unsuccessful tenders will be returned forthwith. Mail all tenders to H. Modin, Executor, 8823-104th Avenue, Edmonton, Alberta.

Mr. Nixon was honored for distinguished political services.

SEED TREATMENT PAYS

The treatment of seed and other seed-borne diseases has come a long way since the days when the use of formaldehyde was standard practice and there was available today a number of reliable organic mercury chemicals for the treatment of seed, which give very satisfactory protection at relatively small cost per bushel. In addition, there is now protection in the form of dual purpose treatments, against seedling blight, root rot and wireworm damage. Plan to use one of these seed treatments this spring.

PROVINCIAL GOVERNMENT GRANTS

CITIES, TOWNS AND VILLAGES

Alberta's cities, towns and villages need money to provide diversified services for residents. This money is derived mainly from two sources—municipal taxes and Provincial Government Grants.

The 1956 municipal levy in cities, towns and villages in Alberta was \$45,382,855.35 which, added to the Provincial Government Grant of \$31,816,625.51 equalled a total of \$77,199,480.86.

Provincial Government municipal grants are paid directly to the cities, towns and villages concerned.

School Grants are paid directly to the School Districts and Divisions and Hospital Grants are paid to hospital authorities.

	100 %
Total Grants and Taxes	\$77,199,480.86
Total Taxes	58.7%
	23.2%
School Grants	\$17,905,233.88
	10.6%
Municipal Grants	\$ 8,178,855.06
	7.5%
Hospital Grants	\$ 5,732,516.57

* To express these grants in terms of their assistance to a municipality, school grants are pro-rated on an assessment basis. Hospital grants are pro-rated on a provincial per-capita basis. The resulting figures are therefore considered an approximation.

Provincial Government Grants to Alberta counties and municipal districts will be discussed in the next installment in this series.

Return a Strong Diefenbaker government

Today Canada stands on the brink of really big things. "Everything without regard to limits" will be done to provide work, prosperity and new opportunities for Canadians—through vigorous development of our resources, increased foreign trade, social security and moral leadership among the nations.

These are the pledges of the man and the Party who have already fulfilled their 1957 promises: to taxpayers, homebuilders, senior citizens, agriculture, industry... and you. The Diefenbaker Government has shown that it gets things done. A strong Diefenbaker Government will get the big things done!

Total commercial meat output in Canada during 1957 amounted to 35,000,000 pounds or five percent over 1956.

Sales of Canada Savings Bonds in 1957 were up 27% over 1956 to \$1,169,421,000.

Kinsella News

The Bruce and Kinsella basketball teams met at Kinsella on March 5th and while the Bruce girls proved a bit more adept at hitting the basket, the Kinsella boys were out to win, and did, by a good margin.

Our hats are off to the girls from home who showed how versatile they are by making their own uniforms. Their green and gold makes a charming, though businesslike picture, and we are proud of them. More practice will soon enable them to reverse that score.

The boys were sporting new uniforms furnished by the Community League and look really sharp in their green and white. Played a good game too. Keep it up boys.

We can all be proud of our young sports enthusiasts and our thanks should be freely given to Mr. Harris for his untiring efforts in training them.

Mrs. P. Moller, Mrs. C. Loades and J. Moller have returned from various places in Saskatchewan where they have been visiting relatives and friends.

Mrs. J. Lancaster spent the weekend at the home of Mr. and Mrs. D. Bortwick of Viking. Barbara Jo Penner of Edmonton is at present staying with her grandparents Mr. and Mrs. O. Olsenberg while her parents are on holiday in the United States.

Farm experts estimate a 45-600,000-bushel loss to Canada in wheat sales in the current crop year as a result of American wheat "dumping" in export markets where Canada heretofore has sold.

SATELLITE PILOT AND TRIGGERMAN—Cape Canaveral, Fla. —Scientist Walter Hausseman (left), Chief of Guidance and Control at the Redstone Arsenal, and Dr. Ernest Stuhlinger, who triggered the rockets that launched the U.S. Satellite "Explorer" into orbit, are shown at a news conference in Cape Canaveral as their baby was whooping it up around the Earth every 114 minutes at 18,000 M.P.H. The story goes that when Dr. Stuhlinger became a father recently, his wife told him: "Okay, I had my little Satellite, now you have yours."

With spring not so far away a majority of homemakers will be thinking of redecorating their homes.

Several factors have to be considered whenever one is planning to paint a room:

1. The size of the room will determine the choice of color to be selected. If the room is large, one can afford to use dark colors, whereas; if a room is small, a lighter color should be selected. Light colors reflect light, therefore, make the room larger; dark colors on the other hand absorb light and decrease the size of a room.

2. The number and size of windows as well as the direction of light is also a factor to be considered. If a room faces north or east warmer colors (yellow, orange, rose, pink) should be selected. With more sunlight on the south or west cooler colors (various shades of blue, green, grey, mauve) are quite becoming.

3. The color of your furniture, floor covering or draperies may also serve as a starting point for your color scheme, e.g., if the draperies in the living room have a beige background with dark green and chocolate brown design then your choice of colors could be beige walls, chocolate brown chesterfield, a green or tangerine chair and green and tangerine cushions as accents for a north or east exposed room.

4. Personal preference also has to be considered.

5. The choice of color chosen should harmonize with the colors of the room if visible across the hallway.

6. The use and function of a room, will also determine the choice of color to a certain extent. Since the living room is a social room where men, women, and children gather, colors should be fairly neutral. The Law of Areas applies here, and that is the larger the area to be covered the duller or more neutral a color should be and the smaller the area the brighter a color can be.

Bedrooms require soft, restful colors and should be decorated to please the individual. In kitchens, gay, bright colors are quite satisfactory since the homemaker spends a great deal of her time there.

Notice to Creditors and Claimants

PLAYS on a shoestring

Dear Bonnie:

Have you received your invitation to Fort Qu'Appelle Christmas Drama Course being given at Easter at the Prairie Christian Training Centre. If not, here is Mrs. Mary Toombs' letter of invitation.

Have you ever been asked to do the Christmas Pageant? Or direct a play in the Church? Costume a Nativity Scene? Or find the church drama group a good play? If so, this article is for you.

Many so-called Christmas Drama plays and pageants are dreary and lifeless. We find Biblical characters as 'other' than ourselves, being shown with what Dorothy Sayra, a noted English authoress calls 'stained glass window decorum'. Sacred personages standing about in symbolic attitudes and self-consciously awaiting the fulfillment of prophecies. Little wonder that most people shy away from Religious Drama; little wonder that our play and pageant don't quite 'come off'. And yet we have in our Christmas beliefs the greatest drama ever staged. It is a drama which is still with us in all its excitement, its tragedy, its joy and its power. Plays which explore the Christian view of life, and which are done with courage; pageants which unfold the well-loved stories in the spirit of truth; choral speech which strips the blinds from our eyes so that we see ourselves and see us; these are daring things to consider, often frightening things to do, and because we are overwhelmed by their challenge we choose instead the easy, the safe, the unoffending, the milky-water concoction which results in more than spiritual indigestion. Christian Drama is nothing less than 'Strong Meat'.

What is the answer?

Several people in Saskatchewan have been very concerned about the lack of this 'strong meat' not only in drama in general, but in the drama done for, and in the name of our Churches. Working with the Regional Council of the Dominion Drama Festival, a committee was formed of several denominations under the chairmanship of Mrs. Mary Toombs, B.A., and Mrs. V. J. Church, Regina. This committee was set up a Christian Drama Workshop... first of its kind in Saskatchewan... to meet what we feel is a crying need. We recommend it to you as an investment for any church or community which uses or would like to use drama as part of its program. For this reason, we suggest that any group wishing to 'sponsor' or send a student to the workshop should send a person who will be returning to his community to further the work in his own area rather than one who plans on leaving the town the next year.

Who? (Will be on staff?)

Mrs. Isabel Squires, guest lecturer, Christian Drama Council of Canada; Mrs. Mary Ellen Surges, Drama Consultant, Fitness and Recreation Division, Department of Education; Mrs. Florence James, Drama Consultant, Saskatchewan Arts Board, Regina; Mrs. Mary Toombs, Co-ordinator of Workshop; Miss G. Patmore, Assistant, Prairie Christian Training Centre and Registrar of the course. Two chapters will be residence and will take an important part in the proceedings.

Who Can Attend?—Anyone over eighteen years of age or who has finished high school.

Where? Prairie Christian Training Centre, Fort Qu'Appelle, Saskatchewan, has offered its facilities for this five days training session.

When? April 8 to 12, 1958. Registration will be at 10 a.m. Tuesday, April 8. Since this is Easter Week, it may be possible for more adults to attend than at any other time of the year.

What? Classes in Acting, Directing, Writing, Make-up, Costume, Choral Speaking, Music

In Christian Education, Movement, etc.

What is the cost? Registration is \$2.50; board and room \$2.50 per day. Tuition... Free. Send your request for registration to Miss G. Patmore, Prairie Christian Training Centre, Fort Qu'Appelle, Sask.

It is advisable to state age grouping so that compatible people may be billeted together—18-25; 25-35; 35-45; over 55 years.

The preference of course to be taken should also be stated in order of preference—Acting, Directing, Writing. All other courses will be open to all students. This is a concentrated course and it is felt that a student should state his or her preference in order that instructors may prepare materials for enrollment expected.

I know Bonnie that you have

Province assists by buying Humboldt bonds

Provincial Treasurer C. M. Fines announced that the Saskatchewan Government has purchased a substantial block of Town of Humboldt bonds. Of the \$63,000 issue marketed recently to provide funds for sewerage and water projects, \$34,000 had been taken by the provincial treasury, he said.

In making the announcement, the Provincial Treasurer stated that the purchase was one of a large number of similar purchases made under a general government policy of providing capital funds to assist with school and hospital construction and the installation of sewerage and water systems in smaller urban centres.

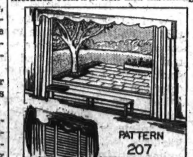

This policy, though in existence for a number of years, received special emphasis in 1956 at the Provincial-Local Government Conference. At that time the Provincial Government made a categorical commitment to purchase substantial blocks of local government debentures when marketing difficulties were encountered. Since then, Mr. Fines said the treasury has intensified its interest in local government issues of bonds and has made large purchases when necessary.

The volume of assistance given to municipal governments in this way has been growing rapidly and during 1957 the province invested over \$15 million in local government debentures. We have always been very much aware, the Provincial Treasurer said, of the difficulties encountered by Saskatchewan municipalities in marketing bonds and it is a source of considerable satisfaction to be of direct assistance in this way.

Corinices

Corinices for windows of all types and sizes. This pattern is pattern 207. It gives actual-size guides for many designs that may be combined in different ways and includes construction and installing

directions. Price 40c. This pattern also is in packet No. 50 which contains five full-size patterns for decorator projects all for \$1.75. Orders under \$1.75 add 10c service charge.

Send order to: Home Workshop Patterns, Department P.R.I., 4425 West 8th Avenue, Vancouver, B.C.

already attended two courses given when you lived in Nova Scotia and how high you were in the praise of what benefits you received. You did say that the second course may have been responsible for your winning the award in last year's provincial Christian Drama Playdowns. I know from seeing your work last fall and then seeing your play in production in late January, you certainly learned some basic skills somewhere and knew how to apply them. The results were certainly in evidence, and I would strongly suggest that your High School group next year consider entering the competitive festival. Having seen the recent High School Drama Playdowns at North Battleford where winners from six districts presented plays, your students with some training under you next fall, and a couple of adjudicators in the audience, would make a most creditable showing, and maybe pick off an individual award or two. I doubt if they should expect to win the Northern Semifinals the first year. Oh, it has been done, but it is too good for the director and cast. Sometimes it gives them the idea that winning is easy, and the next year, they expect to win again and they don't, may be a bit disappointed.

I recall one chap and his cast in their first adjudication were pretty severely criticized, constructively of course. They decided for some were in grade 9 and knew they had four years high school ahead of them, and they would complete year after year until they did win, because they had earned so much that first time. They had seen standards of production, and had as a result, something to shoot at. It took six years to do it, but the students who lived near the festival centre were on hand to give moral support to their alma mater, and great was the rejoicing when the least hoped of the play award as well as individual awards.

The three P's were much in evidence in their performance. PITCH, PACE and POWER. It is most disappointing to be unable to hear what actors and actresses are saying. Of course, they rehearse in a small room, classroom or church basement, but why can't they do as you did, place some one outside the room with the door closed, and everytime that person cannot hear what is being said inside, rap on the door. People go to "see" a play but they are also entitled to hear in every part of the auditorium. You may recall that one of your girls had this difficulty and the adjudicator mentioned it to you cast in the private adjudication. However, adjudicators are entitled to mention inaudibility from the public platform, and I know how the casts feel... a bit embarrassed. The director should provide leadership in this way by, right at the beginning of rehearsal, mentioning the three P's—pitch, pace and power, and keep reminding his company throughout the rehearsal until it is proven that they know and understand what is expected of them, and govern themselves accordingly. Everyone who pays an admission fee to the performance, whether seated in front or back seat, is entitled to get his or her money's worth.

Do hope that you and that very nice lady who was your assistant will see your way clear to attend the East Christian Drama course. An expecting to see you there for sure. Tell John he can get his own meals with the aid of those charming children of yours for a week. Am off to more drama festival, so will be writing you from some other point next week.

Sincerely yours,
Mary Ellen Surges

PREPARE AIRCRAFT FOR DAWN SORTIE—Ground crews of Petawawa's 1 Air Observation Post Flight ready one of the Flight's L19 Cessna aircraft for an early morning practice over Algonquin Park during Exercise "Cold Duck".

Women volunteers form backbone of Red Cross

By Dorothy Pechey

Mrs. E. C. Leslie, Provincial president of the Saskatchewan Red Cross, deprecates the fact that disaster has always been the best recruiting factor for the Society, both for volunteer workers and for monetary donations. It has been the experience that in time of war or other catastrophe the humanitarian work of the Red Cross has been little or no publicity to command public support. But in times of peace, and prosperity the continuing work of the organization falls on the shoulders of a faithful few.

"This is as short sighted a view," says Mrs. Leslie, "as a man refusing to take out an insurance policy simply because he feels fine today. Support of the work of the Red Cross is in reality an insurance for every man, woman and child against the day when disaster strikes either in the form of individual illness or catastrophe on a personal or national scale."

With the opening date of the nation-wide drive for funds fast approaching, Mrs. Leslie, in her second year of office, is up to her ears in campaign work. She is well steeped in the organization's scope and needs, having begun to work with the Junior Red Cross as far back as 1933. In 1935 she transferred over into the senior branch of the Society, but continued Junior Red Cross hospital visiting as her main project.

During the wartime years she was particularly active on the Red Cross project of meeting war brides and helping them establish and adjust themselves into their new homes. In addition she worked in the busy wartime sewing rooms with dozens of other volunteer sewers; helped man the blood donor clinics; and continued hospital visiting both in the Junior Red Cross hospital wards and the veterans' wards in the C.V.A. and geriatric centres in Regina.

In 1943 she became president of the Regina branch of the Society. A few years later she entered the still wider provincial field of the organization and from an executive post as second vice-president, worked her way up to the presidential position to which she was elected for a two-year term in 1956 at Saskatoon.

Mrs. Leslie said that last year's Provincial Red Cross expenses were \$263,190 which was considerably more than the actual amount raised by the 1957 drive for funds. These funds have to stretch a long way, and cover a good deal of ground and a cursory look at last year's programme gives the layman some idea of the idea of the vital work being done. Services

There were 1,785 volunteer women in the province last year doing knitting and sewing either in their homes or in organized

HOUSING

Starts on new dwelling units showed another marked gain in December to bring the 1957 total to an estimated 122,340 units, about 4 percent below the 1956 total. This was a recovery from 18 percent below at the end of July. Completions for the year were down to 117,283 from 135,700 in 1956, while the number under construction at the year's end was up to 72,753 from 68,579 units a year earlier.

Four-season-style PRINTED PATTERN

4730
SIZES
12-20
by Anne Adams

Pep up your wardrobe and your spirits with this pretty, easy-sew style that has a sweet-heart neck in front, V-back. Choose a dry-cleaning cotton that doesn't need ironing—enjoy this Printed Pattern all year around.

Printed Pattern 4730: Sizes 12, 14, 16, 18, 20. Size 16 takes 5 1/2 yards 35-inch.

Printed directions on each pattern part. Elastic, accurate.

Send forty cents (40c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to:

Household Arts Department, Department P.R.I., 60 Front Street W., Toronto.

ITCH STOPPED IN A JIFFY

Very first use of our itching relief... D.I.D. Prescription positively relieves red itchy—caused by eczema, hives, cold/flu, chafing—other itchy troubles. Gelsolene, itches—24 trial bottle sent today or money back. Don't suffer. Ask your druggist for D.I.D. Prescription.

Now Many Wear FALSE TEETH

With Little Worry

SLEEP TO-NIGHT

AND RELIEVE NERVOUSNESS

SEDICIN tablets taken according to directions is a safe way to induce sleep or quiet the nerves when tense.

This Red Cross objective for Saskatchewan this year is \$340,300.

You'll find my CHERRY DUMPLINGS easy to make!

Turn out into bread soupcon or bowl
1 can (approx. 15 ounces) cherries and syrup
Add and stir until sugar is dissolved.

1/2 cup granulated sugar
Cover and bring to boiling point.

1/2 cup water
Cover and bring to boiling point.

Meaning, stir together into a bowl
3/4 cups one-cupped pastry flour or 1 1/2 cups unbleached flour
2 1/2 teaspoons Magic Baking Powder

2 tablespoons granulated sugar
Cut in finely
2 tablespoons chilled shortening
Mix in.

1/2 teaspoon grated orange rind

Make a well in dry ingredients and add
1/2 cup milk
Stir and mix with a fork, adding a drop milk, if necessary, to make a drop dough. Drop by spoon into boiling water. Cover and simmer 15 minutes, without lifting lid. Serve immediately. Yield 4 or 5 servings.

Guard against... depending on MAGIC Baking Powder. MAGIC protects all your ingredients... gives you light, tender baked goods. Buy MAGIC today!

MAGIC Baking Powder

Monthly Review

THE BANK OF NOVA SCOTIA

Canadian agriculture in 1957

For Canadian agriculture as for Canadian business 1957 was in many respects a less satisfactory year than 1956, says the current Monthly Review of The Bank of Nova Scotia.

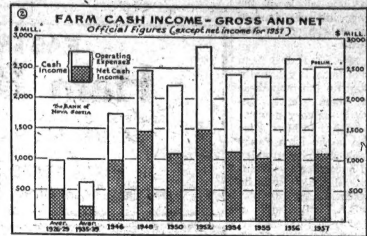

Poor growing conditions made the prairie grain harvest one of the smallest in recent years. The export movement of wheat slowed down again after the temporary upswing in 1956, and as a result western farmers were able to deliver substantially less grain than in the previous year. The prices of a number of important farm products, including grains, potatoes, and eggs, averaged lower for the year, and livestock prices declined sharply in the autumn.

Despite enlarged production of most of the major animal products and more government support prices, the gratifying improvement in farm income that had occurred in 1956 did not continue. Preliminary estimates of cash received by Canadian farmers in 1957 from sales of farm products and from participation payments on past crops placed it at just over \$2,500 millions, 5 per cent below the figure for 1956. The major part of the decline took place in the Prairie Provinces where increased income from livestock provided only a partial offset to the drop in returns from grain.

However, looking ahead to the coming months, the Review sees a number of factors working to sustain farm income. Ample feed supplies and the large numbers of livestock and poultry on farms suggest a continued high level of livestock, dairy and poultry production. And the rapid growth in the Canadian population, which last year increased at the extraordinary rate of about 3½ per cent and is now approaching 27 million, points to an expanded market for animal products.

In addition, there is evidence of an upturn in wheat exports and hence of an accelerated movement of grain off prairie farms. It is hoped that Canadian wheat exports will reach 300 million bushels in the current crop year ending in July as against 285 million in 1956-57. Besides stepping up her selling efforts in Europe and elsewhere, Canada has recently taken a number of unusual steps to expand exports, including provision of an additional \$50 million under the Colombo Plan to India, Ceylon and Pakistan for the purchase of Canadian wheat and flour.

The Review notes that, in contrast to the reduced output of grains in 1957, production of animal products rose. The expanding poultry industry set records in

both eggs and poultry meat. Cattle marketings also established a new high mark. Of the principal milk products, butter output was slightly larger than in 1956, output of cheese was up 11 per cent and that of concentrated milk products 12 per cent. One of the main elements in this last increase was a striking 50 per cent rise in production of skim milk powder, which is increasingly being produced as a by-product of butter manufacture.

The year's large milk production gave rise to over-ample supplies of some dairy products. Stocks of cheese at the year end were some 12 million pounds bigger than in recent years, and those of evaporated whole milk and skim milk powder were also heavy, despite record domestic consumption. Some progress is being made, through curtailing production, in bringing down stocks of evaporated milk, but mounting stocks of skim milk powder may present a problem of disposal, especially if the trend towards combined production of butter and powder continues.

In contrast, the butter surplus decreased in 1957, though because winter production was unusually large the decline in year-end stocks was not nearly as marked as had been expected in the fall. The Review draws attention to the continued increase in large-scale commercial production of poultry, the poultry industry. Attractive prices and the ready-to-cook form in which they are sold have made them popular with the housewife.

It also comments on the increase in turkey production that has been stimulated in the West by the large supplies of surplus grain and in both East and West by the advance in marketing methods with the establishment of new eviscerating and freezing plants. Consumers are now concentrating their purchases of turkey less heavily in the late months of the year than formerly

and are also exhibiting a preference for the lighter birds. The most striking development in Canadian livestock markets in 1957 was, according to the Review, the resumption in the latter part of the year of substantial cattle exports to the United States. For more than two years Canada had been a net importer of beef, but in the last three months of 1957, some 236,000 head of cattle, mostly feeder stock from western Canada, were shipped across the border. The year's total exports of cattle and beef were the equivalent of 443,000 head or 20 per cent of net marketings, whereas in 1956 such exports had amounted to only 4 per cent of marketings.

The Review concludes by noting the extent to which hog production has been stimulated in the west by the difficulties in marketing grain. Western Canada in 1957 had 28 per cent fewer hogs on farms than Eastern Canada but last December only 8 per cent fewer.

51 MILLION POWER PLANT GOES "ON LINE"

Canadian Utilities' new million-dollar power plant south of Val-des-Bois officially went "on line," pumping power from its 10,000 kilowatt gas turbine to all sections of the company's northern transmission network. District Superintendent E. Harrison said the new plant assumed the entire base load for the south Peace River Country for the first time. —The Herald Tribune, Grand Prairie, Alta.

DURING A RECENT appeal for skates for Indian children in the north, 102 pairs of skates were collected at the office of Northern region, D.N.R., Prince Albert.

Used skate appeal big success in North

Many northern Saskatchewan children are enjoying the pleasures of ice skating this winter, as a result of a public appeal for used skates, made by the resources department's northern region.

Northern Region Administrator C. S. Brown, said about 125 pairs of used skates in good condition had been received from citizens of Prince Albert and district in response to the appeal made some weeks ago. The skates were distributed by resources department conservation officers to schools in the settlements of Beauval, Ile a la Croix, Buffalo Narrows and Portage la Loche.

He said letters had been received by the Region from the teacher and 21 pupils of Beauval village school, expressing appreciation for skates they had received. The teacher, Miss Katherine Brown, said a borrowing system, similar to that of a lending library, had been set up at the school, to give all pupils an opportunity to use the skates.

Mr. Brown commended the citizens of the Prince Albert area, Radio Station CKBI and the local press for their splendid co-operation in making the project a success.

He said the need for skates for northern Saskatchewan children was almost unlimited and "we could easily distribute 1,000 pairs." A real interest in this healthful outdoor recreation exists in many northern communities, where

stinks have already been built and skating clubs organized.

He stated the appeal would continue. Persons wishing to donate skates are asked to send them to Northern Region Office, Provincial Office Building, Prince Albert.

Thousands are ice fishing

Manitoba's unusually fine weather this year has had its effect on her fishermen. One-and-a-half as many have applied for winter angling licences to date as did during the whole 1956-57 season, provincial fisheries branch officials report.

About 3,000 licences had been sold up to February 1 while last year's total to the end of March was just 2,000. These permits were issued for sport fishing alone. Commercial fishermen applied for another 5,500 licences.

To broaden the hunting grounds, the department of mines and resources announced that five new lakes have been added to the 40 now open to winter anglers. They are Whiteshell, Breton, White, Davidson and Sandy Lakes. The fishing is reported to be exceptionally good this year in the southwestern part of the province.

Director of fisheries, S. Sigurdson, said winter sport fishing was practically unknown a few years ago but the angling public has become increasingly keen on spending sunny winter days fishing through the ice. There are over 600 vendors of licences stationed throughout the province and they report that most of their sales have been 31 permits to Manitobans. Only about 100 licences have been sold to non-residents for \$2.50 each.

PRACTICE ROAD COURTESY

United Church hears minister from Japan

Rev. M. Furuya, first missionary to be sent from Japan to a Protestant congregation in Canada, was guest speaker in St. James United Church Sunday evening.

Although speaking the English language with marked difficulty, Mr. Furuya gave his audience a realistic picture of Japan where 80,000,000 people live in a country much smaller than Manitoba. Due to the large population, there is no future or freedom as every inch of arable land is cultivated and every position filled. The only expansion possible lies in manufacturing and trade with the outside world. The Christian nations, he emphasized, must pay attention to poverty and lack of freedom or catastrophe would result.

Following the service, he presented a brighter picture of Japan through his collection of slides. Many of the buildings as well as the transportation systems and street lighting are as modern as in western cities. In contrast, he showed pictures illustrating elaborate Japanese architecture and the beautiful scenery of the country. —The Leader, St. James, Man., Jan. 30, 1958.

Local News

With the kind permission of the O.O.R.P. the C.W.I. will have a table of Aprons for sale at the O.O.R.P. Bake Sale and Tea in the Legion hall on March 15th.

Mrs. Ray Seguin, Phillip and Patricia of Wainwright, spent last weekend at Irma with Mrs. Seguin's mother, Mrs. Alma Enger.

The fine new clock in the Irma skating rink was donated by the Irma branch of the Women's Institute.

Mr. and Mrs. C. Pyle's farm home north of Irma, is yet another bright spot on the map these days having been recently connected up with Calgary power.

Our best wishes to Miss Alice Fisher, who is the Irma Fancy Skating Club's well chosen entry for carnival queen for the Wainwright carnival which will be held this week.

The L.O.B.A. will hold a dance in the North Hall on March 14th. Music by the "Mix Masters." Admission 75c and 50c. Lunch will be served.

Mr. and Mrs. W. Symington, Della, Allan, Landis and Mrs. Zoot, all of Edmonton, were renewing old acquaintances at Irma last weekend. This was baby Landis' first visit here and we understand she was a "social success."

Mrs. C. L. Currie is attending the Branch Conference of the W.M.S. at Calgary this week. Don't forget Family Night at the Irma United church on Sunday evening, March 16th.

The O.O.R.P. ladies of the Royal Purple Lodge are sponsoring a Tea and Bake Sale at 3 p.m. March 15 in the Legion hall. Day Special.

Mr. and Mrs. Martin Enger attended the funeral of the late Mr. Price Tetter in Grace United church, Wainwright on Saturday.

Miss Jeanette Pond of Edmonton spent last weekend at her home here.

Mr. L. L. Guiltner has returned home after spending a few days in Viking hospital suffering from a bad cold.

Mr. and Mrs. Stanley Pierce of Edmonton have been at Irma to assist Mrs. Guiltner during her husband's illness.

Mr. V. Torrance is a patient in Lamont hospital. His many friends at Irma wish him a speedy recovery.

At a recent meeting of St. Mary's W.A. it was decided to have a Sale of Home Cooking and Aprons on Saturday, April 26th. Watch for further particulars. **14p**

Born to Mr. and Mrs. A. Nichol, the former Jean Larson, at the Wainwright hospital on Sunday, March 9th, a daughter. Mrs. Ruud Sr. of Tolland P.O., Alberta, has been visiting at Irma at the home of her son, E. Ruud.

Mr. and Mrs. Vernon McLaughlin of Minburn spent last Sunday visiting with Mr. and Mrs. J. Christenson and family at Irma.

The Home and School Ass'n will be presenting on Monday, March 17th at 8:15 p.m. Films will be shown.

Among those who enjoyed the Diefenbaker meeting and reception in the Jubilee Auditorium last weekend were the C. S. Smallwood family, Mrs. R. C. McFarland, Mrs. H. McKay and Donald, Mr. and Mrs. K. Coffin and Mr. and Mrs. J. Dunbar. Mrs. C. S. Smallwood was one of the tea hostesses on this happy occasion.

Social Credit Candidate for Battle River-Camrose Federal Riding

HENRY RUSTE

M.L.A. for Wainwright Constituency
Everybody Welcome
(Inserted by the Battle River-Camrose Social Credit Assoc.)

IMPORTANT NOTICE

To the Ratepayers of The Municipal District of Wainwright No. 61

Your attention is directed to excerpts of Section 4 and 5 of The Tax Recovery Act being Chapter 334 RSA 1955 as amended.

4 (1) During the month of March in each year, the treasurer—

(a) SHALL prepare in triplicate and in the prescribed form list of all parcels, THE TAXES WITH RESPECT TO WHICH HAVE BEEN IN ARREARS FOR MORE THAN A YEAR—

(b) Shall sign the same, giving his address, and
(c) Shall send the triplicate lists to the Chief Officer of the Municipality concerned.

(2) The Chief Officer of the Municipality, upon receiving the triplicate lists, shall forthwith sign the same and shall return them to the treasurer.

(3) The treasurer SHALL before the first day of April forward two of such lists to the proper land titles office, but before doing so shall remove from the tax arrears list any parcel, the arrears of taxes in respect of which have been paid, and initial all removals.

(4) Taxes shall be deemed to be in arrears within the meaning of this section, when they remain unpaid AFTER THE THIRTY-FIRST DAY OF DECEMBER OF THE YEAR IN WHICH THEY WERE IMPOSED.

5 (1) Immediately upon the receipt of the tax arrears list, the Registrar of the proper land titles office shall place upon the certificate of title of each parcel a tax recovery notification. (Caveat).

(5) After the tax recovery notification has been made it shall not be removed, until

(a) the treasurer directs its removal or
(b) a certificate of title has been issued to a Municipality or other person, under the Provisions of the Act.

The Municipality is reluctant to place caveats against titles. However the above excerpts from the Tax Recovery Act makes the Procedure mandatory. The dead line date for forwarding said Tax Arrears list to the Land Titles Office will be Monday the 24 March, 1958.

Please govern yourselves accordingly.

CHARLES WILBRAHAM, Secretary-Treasurer.

14-21

Cliff Saville Liberal Candidate

Will be heard over Camrose Radio, station CFCW, 1230, March 6, at 8:30 p.m. and Lloydminster station, 1130, at the same time.

Also over the same stations, March 17, 19, 21 at 8:10 to 8:15 p.m.

March 26 and 27th at 8:30 to 8:35 p.m.

March 24, 26, 28, at 1:20 to 1:25 p.m.

A VOTE FOR SAVILLE IS A VOTE FOR PEARSON

(Inserted by the Battle River-Camrose Federal Liberal Association).

Of approximately 260,000 immigrants admitted to Canada last year, the largest group was British.

Midshipmen are so called because originally they had quarters amidships.

Echo - Rodino

Reggie Vandervaste and Tommy Windfield were among the High School students who were bussed to Edmonton Saturday, where they spent the day visiting various places including the University.

Texas Holler celebrated his eleventh birthday March 3.

Visitors to the city were Mr. and Mrs. E. Holler, Mrs. L. Prosser, Wm. MacFarlane and L. Whittier.

Mr. and Mrs. Wm. Revell arrived home after 2 months holiday.

There was a happy reunion in the Prosser household Tuesday evening, when Leslie arrived home after being away for several weeks.

Mr. and Mrs. A. Beckett motored to Vegreville and Two Hills Wednesday.

A number of parents visited the classes in session at Albert school Friday in accord with the annual Parents' Day.

Glen-Coa Gleanings

Miss Edythe Gulbrua of C.I.C. spent last weekend at her home, while Vernon Lofgren, also a student of C.I.C. visited his cousin, Mrs. Rausgok and family.

Mr. Gordon Hollinger is employed in the city at Simpson-Sears.

All of Mrs. Withall's family were home on March 3rd to help her celebrate her birthday, with the exception of Lilly who could not get away from her duties as nurse in training and Don and family who were also unable to be present.

The Rev. and Mrs. L. R. Likness and little Mark spent a couple days at the former's parental home the first of this week.

The film showing the Sudan mission field will be shown at Sharon on Friday evening, Mar. 14. These films are beautiful, all in natural color, educational in more ways than one. On Sunday evening, March 23, the Luther League will be showing an outstanding honor film of one hour's length, entitled, "The Shield of Faith."

Sharon W.M.F. will meet at the P. Spring home on Thursday, March 20. An extra gift for the church at Wome, Alaska, will be the special project at this meeting.
